Testimonial  
Bonita Raisbeck

Trueline got in touch with Bonita following a visit from the HSE in which an improvement notice was issued. In order for us to comply with health and safety legislation we needed a fully compliant health and safety management system that was not only comprehensive and effective but enforced and communicated to employees. Bonita immediately identified what we needed at Trueline and designed a bespoke action plan to achieve results in a short period of time. Not only was an action plan created but Bonita created all policies and procedures we needed to become compliant and made sure I was involved at every stage so I could understand and enforce our new system. The service Bonita provided was extremely professional and we could not have been any happier, not only did our health and safety culture improve but Bonita gave me the confidence and knowledge to continue to improve the health and safety of our employees.

Luke Wellings, Manager, Trueline Expanded Products Ltd
