Testimonials

The Commission for Rural Communities (CRC)

"The CRC first contacted Outsource Safety to carry out a full health & safety audit of our premises and processes. The quality of information and documentation has always been excellent and well tailored to the size and needs of the organisation. This combined with the friendly and practical approach of the staff has encouraged us to retain them on an annual basis."

The Commission needed a partner with a good grasp on health and safety to help them to develop systems which were compliant whilst not being onerous across a diverse range of risks. Staff were required to travel extensively and one of the key issues was to put in systems, practices and procedures to ensure that they were aware of the risks and how best to manage them.

We created an entirely new document for the business and trained groups of staff to enable travel, homeworking, driving and other risks to be better managed. Once the initial project was completed we were retained to provide ongoing support for the business.

If you are a similar business and require safety support we have the skills and expertise to help, we retain over 94% of new business over a five year period showing just how seriously we take customer care (as well as safety). To find out more please call us directly on 01453 800100 and ask to speak to Roger Hart.
