We complete hundreds of SSIP applications each year on behalf of our clients. Many clients take advantage of their support time to enable us to take a hands on approach and work with them to gather the required documentation to support their applications, we also work with them to ensure that the audits, training and evidence are present to ensure a quick and easy approval - our current record being a very fast 1.5 days from application to approval!

Our knowledge of the requirements of PAS91 and our strong relationships with assessor organisations means that we can quickly translate the good practices which you are completing into a successful SSIP application and approval, below are a list of the organisations which we work with, contact us on 01453 800100 to speak directly to a skilled consultant or ask us to [call you back](#) if you let us know your industry sector, number of staff and already have a policy document and RAMS we could secure you SSiP approval in less than 5 days and for under £500.00
