YOUR PARTNER IN HEALTH, SAFETY & ENVIRONMENTAL COMPLIANCE

ABOUT US

We are a professional Health, Safety, and Environmental (HSE) consultancy strategically based near Milton Keynes, dedicated to ensuring robust safety compliance across the Construction, Utilities, Infrastructure, and Groundworks sectors.

Our core service is providing high-impact, practical solutions, including expert site visits, flexible temporary HSE cover, and the development of professional documentation (RAMS, CDM files, Policies etc.).

We partner with clients to reduce risk, defend claims and maintain continuity through reliable, experienced **Chartered**-level support.

OUR SERVICES

Competent Person: Provide legally required competent person status and ongoing expert HSE advice.

HSE Management Systems: Design, implement, and review ISO 45001/14001/9001 Management Systems.

Audits & Inspections: Conduct independent compliance audits, site safety inspections, and system gap analyses.

Risk Management: Develop and review (RA-MS) Risk Assessments (including COSHH, DSEAR) and Method Statements including associated documentation, such as Rescue Plans, Traffic Management Plans (TMP), Lift Plans etc.

CDM Services: Act as a CDM Advisor (Client/PD/PC/Contractor) fulfilling CDM Regulations 2015 duties.

Principal Contractor (PC) Support: Assisting the PC with planning, managing, and monitoring the construction phase, including preparing the Construction Phase Plan (CHSP).

Fire Safety: Conduct Fire Risk Assessments and develop building fire safety policies.

Training: Develop and deliver bespoke HSE training and advise on specialist training where required.

Accreditation Support: Guide companies to achieve third-party accreditations (e.g., CHAS, SMAS & Constructionline).

Incident Investigation: Conduct accident/incident investigations to determine root causes to prevent reoccurrence.

Regulatory Liaison: Provide support and professional liaison with the HSE following site visits/enforcement.

Environmental Management: Advise on environmental legal compliance, policies, and aspect/impact registers.
