

## Case Study Template

<b>Overview</b>	Tidy Planet is a fast developing business, specialising in new environmentally friendly solutions for food waste.
<b>The problem</b>	Tidy Planet had identified that to further develop their services and meet client's requirements in ensuring that they were addressing all their health and safety duties effectively needed support to develop and integrate a health and safety management system.
<b>The solution</b>	<p>SML worked closely with Tidy Planet to obtain a full understanding of their undertaking and business needs, to develop a bespoke Health &amp; Safety Management System with supporting safety records and provided guidance and support to assist in integrating the system into their business activities.</p> <p>SML continue to provide support and assistance to maintain health and safety standards.</p>
<b>The result</b>	Tidy Planet have been provided with a fully bespoke health and safety management system with required safety records and its own internal auditing system to ensure allocated responsibilities are being met.
<b>Conclusion</b>	Going forward, SML will continue to provide support through their designated consultant and telephone access as and when required and through an annual visit to ensure that health and safety standards and supporting documents, records, etc. are maintained to meet legislative requirements and best practice standards.
<b>Quote</b>	<p>Huw Crampton Tidy Planet:</p> <p>With the continued growth of our company we needed to take on a quality H&amp;S Consultant and SML came recommended to us, within 8 weeks of working with SML, the changes we've been able to implement have been easily managed and documented. With our new procedures it's even lead to us having our first ever client complement US on the quality of our new H&amp;S Management plan.</p>
