QHSE-Interspect Ltd (QHSEI) is a quality and health and safety consultancy based in Leicester.

Our services are based on a no nonsense practical approach, and focus around adding value to businesses of all sizes and types.

Occupational health and safety

We specialise in:

- Small business start-up and maintenance, health and safety compliance and support including acting as competent person to new and existing businesses;
- Risk assessments including fire risk and training;
- Audits/inspections and monitoring;
- Health and safety management system development including OHSAS 18001 (ISO 45001) and ISO 14001:2015 (EMS);
- Top management guidance and support to provide a safer working environment;
- Support provided in relation to accident investigations and Enforcement Authority notices;
- Training packages including leadership training and coaching;
- Toolbox talks/training;
- CDM support packages;
- NEBOSH training coming soon.

Various other support/consultancy packages available for discussion to suit your needs.

Special discounted rates are available to local businesses on our *local2local* plan; please call to arrange a no obligation visit.

Quality Management

We undertake:

- Management system development including ISO 9001:2015 transitions;
- Audits;
- Vendor assessments;
- Steelwork fabrication related surveillance and monitoring;
- Welding RWC support.

General QHSE maintenance packages

QHSEI recognise that certain tasks within management systems are beneficial but businesses often play lip service or do not have time/resources to conduct them with the level of detail required, therefore systems perhaps never achieve their full potential and payback.

How **QHSEI** can add value to your business?

- Q/HS/E integrated management system development;
- Manage and conduct your internal/external audit programmes;
- Manage, chair and report on your Q/HS/E management reviews and follow up actions;
- Management system review and wellness checks audits;
- Site/factory inspections;
- Manage Objectives for top management in respect to being able to demonstrate QHSE leadership particularly in response to the new H&S sentencing guidelines;
