Dear Sue

Testimonial

Comply at Work have acted as our consultants in relation to our Health and Safety matters. Paul Barlow assisted us with a matter that required immediate attention as soon as we rang to ask for his advice and assistance with the issue.

With the work that Comply at Work have done it is guiding us to strive to improve our Health and Safety within the company.

May I take this opportunity to thank you for all you assistance regarding our Health and Safety system and with the training that you have carried out on our behalf for our employees.

Yours sincerely

Melanie Holt
