Testimonial.

We have worked with 'Comply at Work' over the past twelve months to look at all areas of Health and Safety and ensure that the school is fully compliant with all the regulations.

The staff are friendly and very knowledgeable and whilst we had a lot of the paperwork in place they advised how to bring it all together and fill in the missing gaps in our Health and Safety file.

We would recommend Comply at work to other organisations who are looking for professional helpful advise.
