13th October 2017

We have just completed a 12 month contract with Comply at Work, utilising their retained Competent Person Support Service.

From the outset, we found Comply at Work delivered an excellent and responsive service. On every occasion we contacted them, the response was immediate and each problem was fully and satisfactorily resolved.

The service received gave us great assurance that we were fully complying with our legal obligation to have a Competent Person in place and the only reason we aren't continuing with Comply at Work is that we have now appointed a full time Compliance manager.

I would thoroughly recommend Comply at Work to any organisation requiring Compliance support.
